

# Let the NWT Chamber help you build your business

NWT Chamber of Commerce members enjoy the exclusive right to market their business-related products and services via our organization's professionally-produced suite of communication tools.

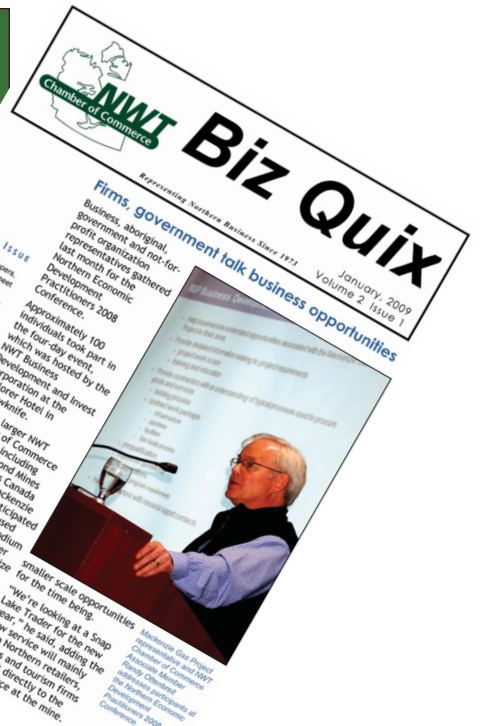

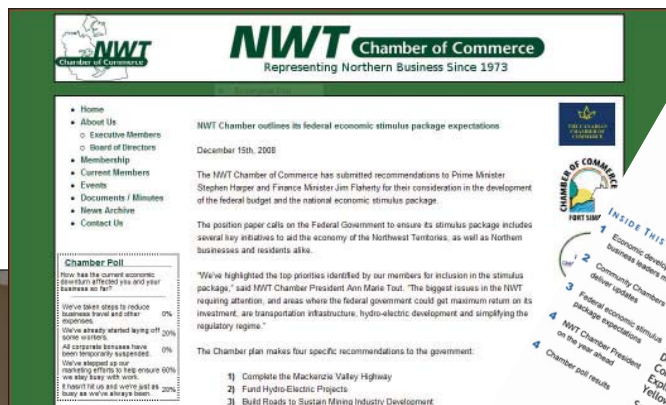

Countless experts agree that business-to-business, or B2B, marketing campaigns are among the most effective ways to make an impact with prospective new clients.

In the case of our lineup of four distinctly different products, a B2B campaign aimed at our member companies and organizations can also deliver results in a cost-effective manner while helping to support your Chamber's ongoing operations.

Whether it's online at our recently revamped website [www.nwtchamber.com](http://www.nwtchamber.com), via e-mail through our environmentally-friendly electronic newsletter **Biz Quix**, face-to-face during our newly approved **Lunch and Learn** event series, by partnering with us to enhance our **Member Rewards Program**, or a combination of all four, we are actively seeking sponsors to assist in our delivery of these critical member services.

Get the exposure you're looking for in the North of 60 business community and let the NWT Chamber of Commerce help you build your business.

Join the Chamber today.

To develop your company's B2B marketing campaign with the NWT Chamber of Commerce, please contact:
